

LOOK FORWARD™

Transform the way work gets done

Is your Collaborative Fabric™ strong enough to drive the results you want?

Effective, efficient collaboration is a key differentiator for modern organizations, particularly as we navigate a rapidly changing landscape and shifting beliefs about the way we work.

Stop Meeting Like This partners with forward-looking leaders to design how work gets done. When collaboration practices are intelligent, energizing, and right-sized, companies can unleash diverse perspectives and produce extraordinary outcomes—both for the business and the individuals on the team.

Every organization's needs are different, but in order to adopt new beliefs and behaviors, capability development is typically needed in these areas:

- Senior-level leadership
- Decision-making
- Innovation
- Prioritization
- Work practices
- Virtual collaboration

Designing a better approach

We partner with you to uncover how your daily collaborative practices drive your current culture and outcomes. Then we help you design and implement a better model that reflects your values and enables you to produce exceptional results.

1 REVEAL core beliefs and dynamics

Through a focused diagnostic, you'll gain deep insight into the invisible dynamics that underpin your organization's Collaborative Fabric.

2 REIMAGINE what's possible

Using the knowledge we've gained, we work side-by-side with you to design a strategy that delivers quick wins and long-term transformation.

3 REALIZE sustainable change

As you transform your culture and ways of working, we help you expand capabilities at the team and organizational level.

What is your Collaborative Fabric?

Your Collaborative Fabric reveals the nature of how individuals within your organization come together to get work done.

Leader Signals

The daily, minute-by-minute cues that leaders send about how team members should behave in order to belong and succeed.

Team Health

The ability of a group of individuals to overcome challenges, trust one another, and continuously expand their collective potential.

Operating Model

The specific way a system is designed to run including information flows, governance bodies, and decision-making practices.

Work Practices

The expected and habitual ways in which team members work day-to-day, including meetings, email, and supporting technologies.

With intention and design, organizations can strengthen the fabric by making more conscious choices about how to weave the threads together.

What our partners are saying

“What’s unique about **Stop Meeting Like This** is they focus on making us better at our day-to-day work rather than making it all about themselves and their process.”

–Vice President, Medical Affairs at a global pharmaceutical company

“You really walk the talk. There’s no one who is easier or better to collaborate with in this new environment of work.”

–Dr. CK Bray, frequent partner and thought leader in cognitive behavioral research

“**Stop Meeting Like This** brings content, wisdom, and empathy, but also structure and organizational capabilities—this is a tremendous asset.”

–Vice President at a Fortune 100 biopharmaceutical company

Ready to transform?

We believe work should be something to look forward to. We put our best practices into action every day—in our work with one another and with our clients. With our diverse network of thought leaders, we have the breadth and depth to bring the right combination of expertise to your situation.

We operate on a partnership model—meaning that we’re not consultants that come in, give you a plan, and leave—we’re with you for the long haul to put learnings into action and celebrate your successes.

Let’s get started
